

Profile

Dipl.-Ing. Ralf Opierzynski

Fraunhofer Institute for Factory Operation and Automation IFF,
Germany

Ralf Opierzynski earned his Diplom degree in Production Engineering from Otto von Guericke University Magdeburg in 1996. Since 1996, Mr. Opierzynski has been working at the Fraunhofer Institute for Factory Operation and Automation IFF in Magdeburg, Germany where he focuses on the fields of ICT, Logistics, MIS, GIS and ERP. In 2005 he became head of the institute's International Competence Center Logistics (ICCL). In September 2008 he moved to Bangkok, Thailand in order to set-up and operate an Asian Regional Office on behalf of Fraunhofer IFF, Germany.

Apart from concrete company projects, Mr. Opierzynski has also headed and completed numerous training and transfer projects (e.g. train-the-trainer projects) in the sector of sustainability management, corporate social responsibility, business performance controlling, energy efficiency, digital engineering, management information systems and virtual reality applications. Project activities were located primarily in Indonesia, Malaysia, the Philippines, Thailand and Vietnam.
